

Hackathons at TEG are like Football games; super-competitive yet full of fun.

Hackathon teams followed all the phases as if they have to build a successful club:

Genies@TEG are data scouts in Analytics. They analyze the quality of data and identify the pieces required for each aspect of further analysis

Selection Phase 1

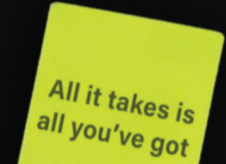

Genies are the best strateists there could be. Each team come up with their own best strategy which ensures the results in the competition

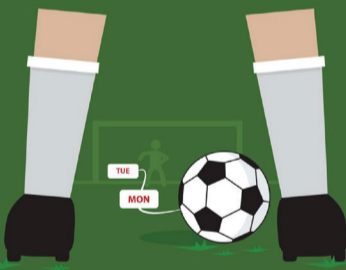

Strategy Phase 2

Credits : Pinterest

EXTRA TIME!
TILL SUNDAY

PENALTY

Teams model and train their data beased on their strategies. Best of the visualizations and statistical techniques are used

Training Time Phase 3

Time to perform at the grand platform and win the championship

Go for Glory Phase 4

The business objective of the Hackathon was to find the traits of the most successful teams and the best footballers in the history of FIFA World Cups.
