

R Hackathon: "If you think this has a happy ending you haven't been paying attention"

Hackathons at TEG are like Game of thrones; the aim is the throne.Hackathon teams went through different phases from a novice fighter to the ultimate champions of the throne.

BRACE YOURSELF

Genies@TEG first analyze the their weapons (here data) very well. They know if they know the data well they can easily win the war.

PHASE-I

LONE WOLF

COMING SOON...

1

You know nothing, John Snow

Now it was time for the genies to build their own strategies, understand their weakness and strength and build a plan to visualize the results, after all they were lone wolves here

The climb is all there is

2

Finally the time was here to check their own strength, execute the plans and finally visualize the results and win the crown alone, for themselves.

3

Winter is here

Phase II

When the snows fall and the wind blows, the lone wolf dies but the pack survives

Now the lone wolves had to build houses with other genies to win the ultimate throne by taking advantage of the best skills of each defender against the attackers in the battle.
